PROFILE

I'm Samarth Kadam, a Data Engineer with a B.Tech in AI & Data Science, helping clients and teams turn raw data into systems they can trust. Working in Microsoft Fabric, PySpark, Python, and SQL, I build and optimize pipelines, Lakehouse transformations, and Data Quality frameworks for healthcare analytics. I deliver on time, solve problems creatively, and go looking for what's broken before anyone assigns it to me. Accountable and client-facing, I turn business needs into systems that work and keep getting better.

PROFESSIONAL EXPERIENCE

Parkar Global Technologies

- Data Engineer**
- 05/2026
Pune, India
- Assigned as Data Engineer for Mercy Healthcare, a U.S.-based healthcare provider, owning data product development, optimization, monitoring, and delivery.
 - Collaborate directly with the clients to gather requirements, clarify business logic and translate change requests into technical solutions.
 - Optimize Fabric notebooks, PySpark/SQL code, and data pipelines for performance, reliability, and maintainability.
 - Monitor pipeline executions, investigate failures, perform root-cause analysis, and ensure timely resolution of technical issues.
 - Deliver client change requests within agreed timelines, maintaining quality and production-readiness.
 - Developed POCs and technical improvements during available bandwidth to evaluate solutions that enhanced the project.
 - Write production-grade code following data engineering best practices, while organizing and prioritizing tasks, coordinating with team members.

- Data Engineer Intern**
- 11/2025 – 05/2026
Pune, India
- Supported the data engineering team as a shadow/investment resource for Mercy Healthcare, a U.S.-based healthcare provider, supporting data engineering initiatives.
 - Supported Data Quality checks and validation to ensure reliability and consistency of data.
 - Developed Proofs of Concept (POCs) to evaluate technical approaches and solutions for project requirements.
 - Gained hands-on experience with Microsoft Fabric and Snowflake cloud data platforms.
 - Delivered minor client change requests within agreed timelines while maintaining implementation quality.
 - Maintained technical documentation for deliverables, changes, and project activities.
 - Earned Microsoft Certified: Fabric Data Engineer Associate (DP-700) and SnowPro® Associate: Platform Certification.

SCIENTIFIC RESEARCH PUBLICATIONS

- Reimagining Mental Health Support: The Role of AI Chatbots in Bridging Gaps and Raising Ethical Questions**
- 02/15/2026
- Published in Wiley Journal - Counselling and Psychotherapy Research (Journal Impact Factor - 1.3)
- Published peer-reviewed research analyzing the role of AI-powered conversational agents in improving accessibility, affordability, and reducing stigma in global mental healthcare.
 - Conducted a systematic literature review of AI chatbot systems integrating evidence-based psychological frameworks including Cognitive Behavioral Therapy (CBT), Dialectical Behavior Therapy (DBT), and mindfulness-based approaches.
 - Evaluated deployment challenges, ethical considerations, and limitations related to empathy modeling, privacy, bias, and responsible AI governance.
 - Highlighted the potential of AI-driven mental health systems to deliver scalable, continuous, and anonymous emotional support.

SKILLS

Programming Languages	AI & ML	Platforms	Tools
- Python - PySpark - SQL	- Neural Networks - LLM - Scikit-Learn - Tensorflow	- Microsoft Fabric - Snowflake - Azure Synapse - Azure Data Factory,	- Git - Azure DevOps - CI/CD

EDUCATION

- B.Tech. Artificial Intelligence & Data Science**
- 08/2022 – 05/2026
Vishwakarma University
CGPA: 8.9
Pune, India
- HSC**
- 2020 – 2022
Laxmanrao Apte Jr. College
Pune, India
- CBSE**
- 2009 – 2020
Aaryans World Schoon
Pune, India

CERTIFICATES

- Microsoft Fabric Data Engineer Associate (DP-700)
- SnowPro Associate: Platform Certification
